

DenTaBoîte

With the DenTaBoîte range, offer more ecological care... but with fun!

› Orthosis range

› ECOLOGICAL

The aluminum boxes are made in France, eco-friendly, durable, and 100% recyclable !

They are suitable for most removable orthodontic appliances: palatal plates, aligners, PUL, ELN, etc...

Unlike traditional plastic boxes, aluminum boxes are durable and box be reused by the patient for other applications at the end of treatment. Their local production uses little energy and resources, and they are 100% recyclable in a conventional recycling bin.

› STICKERS

The boxes come with sheets of 6 waterproof stickers to decorate and personalize them.

Two standard designs are available: for children or teenagers.

Two quantity options are available :

› Economical

23 boxes + 4 sheets, meaning one sticker per box delivered

› Fun

23 boxes + 23 sheets, meaning a complete sheet is provided to the patient so he can personalize his box to his liking, and he can use the other stickers to decorate his notebooks, toys, etc...
